City "Dads" Talk About Them and Infer That Amendment to Ordinance May be Written

THE TIME SEEMS INDEFINITE

Council Buys Dezen Fire Extinguishers Which Will Work Wonders And 2 Gallons of "Juice."

The city council devoted most of its hour and ten minutes last night to the discussion of water meters and fire extinguishers. The councilman heard one certain fire extinguisher, the representative of which visited Rushville a few days ago, eulogized by Dr. C. H. Parsons, and they also heard some facts in regard to water meters; the saving which would result by installing meters.

The city has purchased a dozen of the uncomparable fire extinguishers and two gallons of the "juice" which does the dirty work. The members of the fire committee of the city council witnessed the demonstration by the agent here and placed an order. Last night their action was ratified by the council and Rushville will soon be able to extinguish most any sort of a fire, if the facts which Dr. Parsons and Ed Kelley presented are all

Dr. Parsons told the council one of the fire extinguishers would have put out the school house fire of Sunday night in two minutes. Judging from the demonstration he saw, Dr. Parsons averred that he would estimate that the whole floor of the council chamber could be set on fire and that he could extinguish it with one squirt from the fire extinguisher through the key hole of the door.

But that's not all this extinguisher will do. It will extinguish an electrical fire which can not be done with water because water is a very good conductor of electricity, says Dr. Parson. At. Ed Kelley's blacksmith shop, where the exhibition was made, according to Dr. Parsons, a portion of the floor was saturated with gasoline and lighted, and the fire extinguisher put it out in an instant. He declared that it would put out an are light easily and would damage nothing He said it could be squirted on carpets or any piece of furniture and not damage it in the least.

The extinguisher is made of brass, is six inches long and three and a half inches in diameter. They can be carried in your pocket, according to the councilmen. They cost \$84 a dozen and the "juice" is \$5 a gallon. Dr. Parsons said the chemical action is, it destroys all the oxygen in the Regular Meeting cf Association Toair, and without oxygen there can be no fire.

Water meters were next in order. The council did not decide to install water meters, understand, but just talked about it. From the trend of URGE THAT CROWD ATTEND the conversation last night it is to be inferred that the council means to amend the water ordinance some time between now and next fall so as to provide for the installation of meters

Dr. Parsons said the majority of patrons he had talked to favored the room. The meeting will be an importinstallation of water meters. He also asserted that the majority he had urged to attend. The chief topic for discussed the question with believed discussion will be the I. & C. extenthe consumers should pay for the meters. Dr. Parsons had some figures to show the value of water meters. In seventeen cities of 100,000 ed at the meeting. President Schrichpopulation, the statistics showed, te and Secretary Feudner will report where 25 per cent used water meters there was an average consumption of 182 gallons of water every 24 hours. County Superintendent Says Visit of J. C. Webb at Carthage Has no Bearing on Tragedy.

HIGH SCHOOL WAS INSPECTED

Not Within Power of Member of the State Board of Education to Make Investigation.

J. C. Webb of Franklin, member of the State board of education, was in Carthage, yesterday to inspect the Carthage high school and report his findings to the State board. The high school there is to be re-commissioned along with a number of other high schools in the State and it is the intent of the State board, according to C. M. George, county superintendent, to get a report of the conditions in the school.

A. O. Hill, a member of the Carthage school board, said this morning that the member of the State Harry H. Yohe of Indianapolis, board, while he did not express any the action of the State board will de-

Mr. Hill said that he felt Mr. Webb report that fact to the State board of education. It is the first time the ed by a member of the State board for four or five years, according to

Mr. Hill denied that there had been a factional trouble in the Carthage school organization. He said that there was no mention of such a thing between the members of the State board and the Carthage school board yesterday. The report has been circulated that there has been some friction between the school board and the teachers, but Mr. Hill professed to know nothing of such a thing.

County Superintendent George said today that there had been some little disagreement between the president of the school board, William Bundy, and the superintendent of the Carthage schools. It has not been of sufficient intensity, however, to rise to the dignity of what might be termed factional difficulty.

The circulated story that the tragedy of last week, in which Roy Linscott shot and killed Howard Mc-An automobile made a wild dash Daniel, might have some relation to the internal trouble in the Carthage school organization, and that the visit of the member of the State board yesterday was for the purpose of investigating the shooting and its relation to the diagreement, was branded as absolutely false by County Superintendent George, He declared it was not within the power of the member of the State board to investigate might arise in the school organiza-

Peking, March 6.—The suggestion here to protect President Yuan Shih Kai and restore order in Peking is strongly opposed. It would inevitably result disastrously, as what remains of the northern army is strongly antirepublican and these soldiers would fiercely resent any interference by the men from the south, whom they despise. The northern troops are great ly superior in physique to those of the south, and are aggressively inclined. They would probably whip the southerners in rough fighting.

Fred Hix, Gentleman Burglar, Mexican Political Clubs Petition Just Couldn't Resist.

HIS FIANCE IS PROSTRATED TURMOIL ACROSS THE BORDER

One of the Developments of Paroled Convict's Life of Cultured Ease at Lafayette Was His Engagement to Marry a Young Woman of High Social Rank, Who Fainted When Expose of Her Lover's Dual Life Came.

Lafayette, Ind., March 6.—One of the shrewdest criminals ever dealt with by local police is Frederick Hix, gentleman burglar, arrested here accused of a score of robberies. So cleverly has Hix concealed his identity and his work that not a person in Lafayette, save the one man to whom he was reporting monthly, knew that he was a paroled convict, and none of his numerous acquaintances, many of them members of prominent Lafayette families, ever dreamed that he was anything but a cultured and refined young man worthy of being entertained in the best of homes. At the Y. M. C. A., where he had a room, he was highly respected and everywhere he was introduced here he made a most favorable impression.

Hix and a young woman of social rank were engaged. When she learned that he had been arrested and was tinues. a ex-convict, she fainted and for a time was prostrated. Her father interviewed Hix, and for the first time since his arrest he broke down and cried as he tried to explain to the girl's father why he had refrained from revealing to her his past life.

Hix says when he came here he de termined to lead a proper life, but was unable to refrain from the temptations that beset him. While he does not admit any specific burglary, he admits that he has been leading a double life, and that he will go back to Jeffersonville reformatory from whence he was paroled, and will serve out the eleven years remaining in his term of two to fourteen years for grand larceny.

PEACE MOVEMENT

Indiana Schools Will Give a Day to Its Consideration.

Indianapolis, March 6.—Charles A. Greathouse, state superintendent of public instruction, has sent to the state printer a program to be distributed among the schools of the state for observance of "Peace day." The date selected for the observance is May 18. Many of the schools of the state will be dismissed before that time, but the state superintendent proposes that where such is the case, the on the last day of school, or on some preceding day.

The purpose of the program is to emphasize the world peace movement, and to give the pupils a better understanding of what the movement pro- ilv preciude further negotiations poses to accomplish.

CHAMPION LITIGANT

Dearborn County Man Had Instituted Seven Hundred Lawsuits.

Lawrenceburg, Ind., March 6.-Job C. Miller, aged eighty-one, is dead of double pneumonia and heart disease Mr. Miller was the largest land owner in southeastern Indiana. He was more in litigation than any other person in this part of the state, having been engaged in more than 700 lawsuits during the last sixty years. The majority of these cases were damage suits against railroad companies. Mr. Miller dismissed the last two suits he had in the Dearborn circuit court during the January term, and said it was the first time for over a half century that he did not have a suit filed or pending in the court.

Shelter House Well Patronized.

Muncie, Ind., March 6.-During the months of November, December, January and February more than 1,000 unfortunate men were given free shelter in Muncie's municipal lodging house. It was the greatest number of wanderers ever accommodated in the same period of time, and all were strangers to the city. Most of them were mechanics or laborers out of work and in need of a night's rest.

Wrong on the "Short" Side. Richmond, Ind., March 6.-Richmond's public improvement fund, money paid into the treasury on waivers filed by property owners assessed for public work of any sort, is approximately \$15,000 out of balance and onthe "short" side of the ledger. This discrepancy is due to a lax system of accounts.

PERILS OF THE AIR

Dangling From Dragrope, Mechanic Is Carried to Death by Airship.

Berlin, March 6.—A mechanic named Robers, employed by an airship company, met death in a peculiar way. The airship Parseval went up on a moonlight trip around Berlin, and just as she was ascending the dragrope & caught Robers about the neck and he was carried up in the air for a distance of 1,000 feet. The people on the ground shrieked, but the three men running the ship did not hear them, or if they did thought the noise was made by the crowd cheering. Robers was carried for a distance of forty miles and was only discovered when the ship was about to descend in passing over a wood. The men in the ship felt a jerk, and subsequently discovered the dead body of Robers in a tree.

-Miss Lena McCormick of Flora. LOCAL REPUBLICANS WILL GO

James E. Watson will not be able to speak in Indianapolis Monday evening at the opening of the Taft campaign on account of a pressing business engagement. He said this morning before leaving the city that he could not possibly break the engagement which he has already. It was announced in the Indianapolisi Star this morning that at a meeting of the executive committee of the Indiana Taft club yesterday afternoon it was decided to ask the former representative to speak at Tomlinson hall following the address to be given by Charles Nagel, secretary of commerce and labor

Members of the Taft club are expecting former Representative Watson to make speeches in Indianapolis and elsewhere in Indiana if he can find time to give to sections of the State other than his home district. Tentative plans had been made to have Mr. Watson open the Taft campaign if a speaker were not forthcoming from Washington, but since the announcement that Secretary Nagel will be there the arrangements were altered. A number of local Republicans are planning to attend the opening of the campaign.

A Little Sage and Sulphur Makes Gray Hair Vanish-A Remedy for All HairTroubles.

Who does not know the value of Sage and Sulphur for keeping the hair dark, soft and glossy and in good condition? As a matter of fact, Sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scale specialists to be connected with loss of color and vitality of the hair. Un questionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical Company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is losing its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a fifty cent bottle of Wveth's Sage and Sulphur from your druggist, use it according to the simple directions and see what a difference a few days treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Special Agents, Hargrove and Mullin.

of weary bodies and good consciences, a solitary candle in the small tent occupied by Enid Maitland alone gave evidence that she was busy over the letters which Kirkby had handed to

It was a very thoughtful girl indeed who confronted the old frontiersman the next morning. At the first convenient opportunity when they were alone together she handed him the packet of letters.

"Have you read 'em?" he asked. "Yes."

"Wall, you keep 'em," said the old man gravely. "Mebbe you'll want to read 'em agin."

"But I don't understand why you want me to have them."

"Wall, I'm not quite sure myself why, but leastways I do an'-'

"I shall be very glad to keep them," said the girl still more gravely, slipping them into one of the pockets of her hunting shirt as she spoke.

The packet was not bulky, the letters were not many nor were they of any great length. She could easily carry them on her person and in some strange and unexplicable way

"Read the Letters," He Said.

She could not, as she had said, see any personal application to herself in them, and yet in some way she did feel that the solution of the mystery would be hers some day. Especially did she think this on account of the strange but quiet open emphasis of the old hunter.

There was much to do about the camp in the morning. Horses and burros to be looked after, fire wood to be cut, plans for the day arranged, excursions laid out, mountain climbs projected. Later on unwonted hands must be taught to cast the fly for the mountain trout which filled the brook and pool, and all the varied duties, de-"What do you mean?" asked the girl tails and fascinating possibilities of curiously, thrilling to the solemnity of camp life must be explained to the newcomers.

The first few days were days of learning and preparation, days of mishap and misadventure, of joyous laughter over blunders in getting settled, or learning the mysteries of rod and line, or becoming hardened and acclimated. The weather proved perfect; it was late October and the nights were very cold, but there was no rain and the bright sunny days were invigorating and exhilarating to the last degree. They had huge fires and plenty of blankets and the colder it was in the night the better they

It was an intensely new experience for the girl from Philadelphia, but she showed a marked interest and adaptability, and entered with the keenest zest into all the opportunities of the charming days. She was a good sportswoman and she soon learned to throw a fly with the best of them. Old Kirkby took her under his especial protection and as he was one of the best rods in the mountains, she had every advantage.

She had always lived in the midst of life. Except in the privacy of her own chamber she had rarely ever urday. been alone before-not twenty feet from a man, she thought whimsically, but here the charm of solitude attracted her, she liked to take her rod and wander off alone. She actually enjoyed it. The main stream that flowed down

the canon was fed by many affluents from the mountain sides, and in each of them voracious trout appeared. She explored them as she had opportunity, sometimes with the others, but more often by herself. She discovered charming and exquisite nooks, little stretches of grass, the size perhaps of bordered, overshadowed by tall giant pine trees, the sunlight filtering through their thin follower through their thin foliage, checkering the verdant carpet beneath. Huge moss covered boulders, wet with the everdashing spray of the roaring brooks, lay in midstream and with other natural stepping stones hardby invited her to cross to either shore Waterfalls laughed musically in her ears, deep still pools tempted her skill and address.

LEROY PERCY

Mississippi Senator Whose Seat Is Demanded by the Legislature.

MISSISSIPPI SENATOR SUBJECT OF RECALL

Legislature Demands Percy's Instant Resignation

Jackson, Miss., March 6.-The two houses of the legislature, as a result of the bitterest factional fight in the history of Mississippi politics, adopted a resolution demanding the resignation of Leroy Percy from the United States senate. The demand is based on an alleged promise of Senator Percy, made last summer, to resign his seat in case he were defeated by Vardaman in the primary election. In last year's primary election Vardaman got more votes than Senator Percy and C. H. Alexander, the third man in the race, together. It is believed Senator Percy will resign at once.

SITUATION CRITICAL

Strike Conditions in England Hourly Growing Worse.

London, March 6.-The strike con ditions are becoming worse every hour. The railways are further reducing their service and an advance in the price of bread seems probable. The fishing fleet is tied up and a fish famine is certain The price of coal is still going up, and it was selling at \$10 a ton on the Isle of Wight. Taken altogether the situation is a critical one and it is bound to become worse every day the strike lasts.

The industrial council, to which it is believed the government intrusted the task of finding means for ending the strike, met and conferred with Premier Asquith, who made a very important statement, the nature of which has not been disclosed. The most hopeful sign is found in the report that many strikers in Derbyshire want to return to work and that the owners are considering the question of reopening the

As various industries are being crip pled and closed down for want of fuel the executives of other unions are being compelled to hand out funds to their own unemployed, and these leaders regard the outlook with great anxiety. "It is all very well for the miners," said one official, "but our own union's funds will soon be bled white."

RIVAL BOOMS

Respective Managers of the Taft and Roosevelt Campaigns Exchange Compliments.

Wasnington, March 6. - United States Senator Joseph M. Dixon, who is directing the Roosevelt boom, has issued a challenge to Representative William B. McKinley, director of the Taft boom, to submit the issue of the Republican presidential nomination to the voters in every state.

To this challenge Manager McKinley fired back a quick reply calling on Senator Dixon for a statement of his official status before entering fur ther into the matter.

Now an Orderly Contest.

Lawrence, Mass., March 6 .- All the mills have made gains in the number of operatives at work. The strike ap pears to have freed itself from features of violence which made it so exciting at the beginning, and is now reduced to an orderly contest between the manufacturers and the Industrial Workers of the World leaders. It is believed that within a short time there will be a general return of operatives to the mills.

Death Penalty Demanded.

Indianapolis, March 6.-Thomas B Shouse, colored, is on trial charged with the murder of John Stratton, whom he is alleged to have shot and men got into a dispute over a pool game. The state will ask that the jury inflict the death penalty.

Cascarets Work While You Sleep

Salts, Calomel and Cathartic Pills are Violent—they act on Bowels as Pepper acts in Nostrils.

Take a Cascaret tonight and thoroughly cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out.

Are you keeping clean inside with Cascarets-or merely forcing a passageway every few days with saits, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the cecomposed waste matter and poison from the intestines and bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means a clear head and cheerfulness for months. Don't forget the child-

DEATH PUTS STOP TO STEEL TRUST'S TRIAL

Vacancy In Court Must First Be Filled.

Philadelphia, March 6.-The government's suit against the steel trust has been indefinitely postponed by Judge Gray, who held that the vacancy caused by the death of Judge Lanning would have to be filled before the hearings proceeded. A surprise was sprung at the opening of the case before Judges Gray, Buffington and Cross when H. E. Colton, special United States attorney general, asked that an injunction be granted preventing the corporation from destroying records which might be material evidence in
